

## 4" NORMALLY CLOSED BALANCED 2-WAY/2-POSITION VALVE

### FOR WATER, 95/5, OIL OR OTHER LIQUIDS

The **Valv-Trol 4" Balanced 2-Way Valve** (Model D-1023) is our 4" Balanced 2-Way Valve in its normally closed configuration. (See Bulletin A-29 for 4" Normally Open version.) This valve is similar to our smaller Balanced 2-Way Valve (see Bulletin A-5), but comes standard with a steel body. This gives us great flexibility in designing the valve to meet your exact requirements.

#### Standard model has 4-bolt socket weld flanges.

*Compact to save money, as well as space, since extra companion flanges are not needed. Other flanges available.*

**Other versions of this valve carry conservative ratings up to 6,000 PSI.**

#### Maintenance is simplified.

*Can be fully serviced without removal from the line.*

35 PSI air  
recommended on  
diaphragm

Model	Port Size	Max. PSI *	Cv	Construction *		
				Body	Replaceable Trim	Seals
D-1023-S	4" Flanged	3,500	153.0	Steel	Hardened S.S.	Buna N

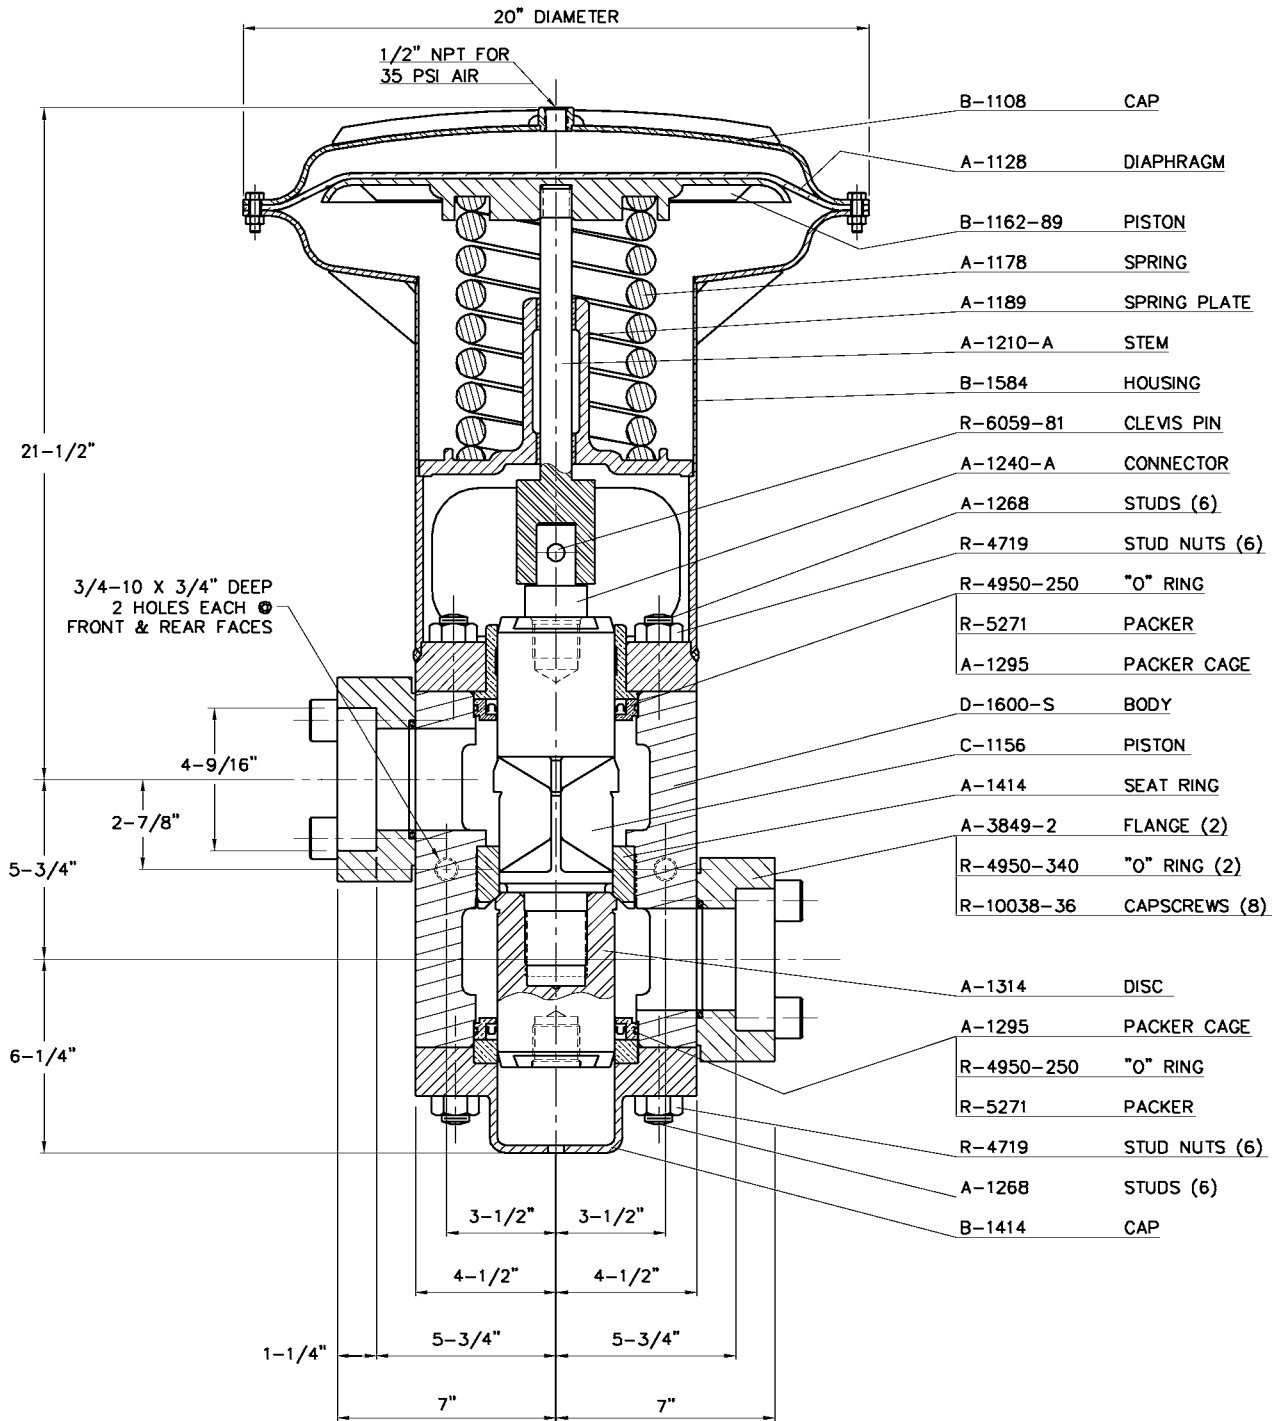

#### The Valv-Trol Advantage

Many parts of Valv-Trol Valves are interchangeable between the same size 2-way, 3-way, and check valves. This helps you to reduce your spare parts inventory and allows us to maintain a more complete inventory for emergency availability and shorter lead times.

Our valves are all subjected to 100% pressure testing to ensure a drop tight seal before we ship to our customers.
